Intelledox + DocuSign Reimagine Digital Customer Engagement

intelledo»: Docu*Sign*

Bring digital transformation to life

Intelledox and DocuSign have partnered to change the way the world communicates and conducts business. Say goodbye to old, expensive paper-and forms-based manual processes. Say hello to mobile-ready, adaptive customer experiences that save time and build brand loyalty.

The Intelledox Infiniti platform empowers customer-focused businesses and government agencies to streamline data-driven interactions along the entire customer journey, from acquisition and onboarding to servicing and growth. Intelledox Infiniti complements your investment in DocuSign, enabling industry-leading digital transaction management [DTM] for customers, agents and employees.

Imagine guiding your customers through the simple, successful completion and electronic signing of data-rich applications, contracts, claims and other complex documents, in record time, through digital conversations instead of static PDF or HTML forms. And, imagine eliminating manual processes to deliver results faster than ever.

Together, DocuSign and Intelledox enable you to gain efficiency and elevate your brand through a modern, reimagined customer experience:

- Rapidly transform PDFs and HTML forms into intuitive adaptive interviews that can seamlessly move from desktop to mobile
- Seamlessly connect to your core systems of record to make your interactions smarter and more relevant
- Incorporate experience-driven workflow to manage reviews and approvals
- **Speed up transactions** and customer response time with integrated DocuSign e-signatures
- Deliver personalized documents and document packages on demand in real time for e-signature

Infiniti's low-code, solution-ready platform reduces the development time of new digital applications by more than 75%

Intelledox + DocuSign

Reimagine Digital Customer Engagement

With the combination of Intelledox Infiniti and DocuSign, frustrating manual processes become intuitive, guided user experiences that make it easy to do business with you — and by offering more engaging customer interactions, you can grow your market share.

3X REVENUE GROWTH Digital transformation leaders vs. laggards*

Mobile-enabled adaptive experiences replace static paper/Web/PDF forms.

Intelledox Infiniti's web-based, easy-to-use drag-and-drop form and template designer tools can be used by anyone who owns the business process. Adaptive, guided experiences can be quickly built and maintained without coding or IT intervention, which makes it easy to produce, review, and approve data, content, and final documents. Intelledox Infiniti saves time and cuts frustrations by guiding customers through these adaptive interviews, eliminating complex instructions while ensuring that the correct information is collected accurately.

Success Story: Republic Bank

This Kentucky-based financial services firm wanted to develop and maintain digital processes for new account opening, commercial loan applications and account servicing activities. It adopted a combination of Intelledox Infiniti and DocuSign to address these needs and support its digital transformation initiatives.

Intelledox Infiniti Use Cases

Leading financial institutions, insurance companies, government agencies, and other enterprise organizations use Intelledox Infiniti for:

- New business applications
- Loan documentation & agreements
- Regulated industrystandard forms
- Sales proposals and quotes
- Claims and service requests
- Agreements and contracts
- Accreditation applications
- License registrations
- Insurance policies
- More...

Quick Connectors enhance personalization and drive efficiencies.

With Intelledox Infiniti's Quick Connectors, data can be brought in from existing CRM, ECM, and Web Content Management systems — or from other core systems of record. Customers can move from desktop to mobile, making their interaction with you fast and convenient, not to mention personalized.

Adaptive self-guided interviews reduce the time to complete new business applications by 60-75%

Experience-driven workflows make business process management easier.

Intelledox Infiniti incorporates a fully integrated, customizable workflow engine so you can initiate and route tasks based on the customer's unique experience and needs, either in specific order or in parallel to other activity. And, with the integration of DocuSign, electronic signatures can be incorporated into any workflow, reducing friction and making the experience appear seamless to your customers. Streamline collaboration, reviews and approvals with reduced risk of error. And, support regulatory compliance requirements.

On-demand customer communications increase engagement and ensure compliance.

Intelledox Infiniti enables fast, accurate production and delivery of personalized, data-driven documents, emails and other digital communications.

You can produce multi-channel, multi-format outputs tailored to individual business requirements and delivery methods, such as Microsoft Word, PDF, SMS, email, XML/HTML, Excel and PowerPoint — even industry-standard forms for archiving.

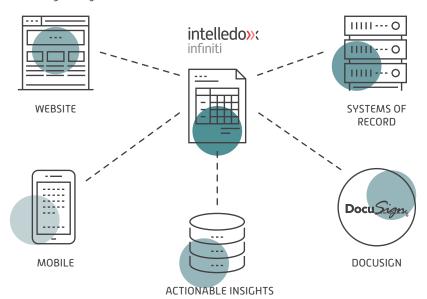

Intelledox Infiniti can help reduce calls to the contact center by 45%

41% OF REVENUE will come from digital business by **2020***
